By signing this application, the applicant certifies that all information on this application is correct and the work will be completed in accordance with the approved construction documents and PA Act 45 (Uniform Construction Code) and any additional approved building code requirements adopted by the Municipality.

Applicant Signature _____

The electrical inspection agency that you select upon application for permit will be issued to you. Therefore, you must utilize the selected agency for the duration of this permit for all required inspections.

A wiring system or electrical equipment shall not be installed within or on any building or structure of premises, nor shall any alteration or addition be made in any such existing installations without first securing approval and a permit from the Building Official.

It shall be unlawful to use or permit the use of, or to supply current for electric wiring for heat, light, or power in a building or structure, unless the required Certificate of Inspection or Municipal card has been furnished to the Code Enforcement Department and the proper sticker indicating approval has been affixed on the main distribution panel or main disconnect by an approved Electrical Inspector and a proper cut-in card has been furnished to the Philadelphia Electric Company by the authorized Inspection Agency or approved Electrical Inspector.
